

HONOLULU POLICE DEPARTMENT

POLICY TRAFFIC OPERATIONS

November 25, 2016

Policy Number 6.10

CONSTRUCTION SITE INSPECTION

POLICY

The Honolulu Police Department (HPD) shall conduct construction site inspections to ensure compliance with the Manual on Uniform Traffic Control Devices and to facilitate the flow of traffic.

PROCEDURE

I. GUIDELINES

- A. All patrol district commanders shall establish procedures for construction site inspections to ensure the safety of the public and to facilitate the normal flow of traffic in their district.
- B. Guidelines for the inspection are detailed on the CONSTRUCTION SITE GUIDELINES, HPD-57B form. The requirements for traffic control devices are listed on the REQUIREMENTS FOR TRAFFIC CONTROL DEVICES - STATE OF HAWAII, HPD-57E form.
 1. Beat officers are to contact the sector sergeant for guidance should any violations exist or questions arise.
 2. All sector sergeants shall be responsible for the inspection of construction sites in their sectors to ensure that the sites are in compliance with standards for roadway closure and warnings. Corrective action shall be taken when violations are observed.
