MESSAGE FROM THE MAYOR

I'm pleased to present the Honolulu Police Department's 2022 Annual Report detailing the structure, functions and responsibilities of the department, and highlighting the outstanding accomplishments of "Honolulu's Finest."

The health and safety of the people of the City and County of Honolulu are top priorities, and much of our success in these areas can be attributed to the efforts of the men and women of the Honolulu Police Department. The department safeguards lives and properties daily, protecting our communities from crime and violence. The department also provides excellent prevention and education programs while upholding the ideals of treating everyone with integrity, respect, and fairness.

This year's annual report details HPD's activities and accomplishments, which often go unseen and unappreciated. The report describes the department's meaningful contributions to preserving and maintaining our quality way of life.

On behalf of the people of our City and County of Honolulu, I extend my sincere appreciation to all employees of the Honolulu Police Department for their commitment to serving and protecting our community, and offer best wishes for future success.

A handwritten signature in black ink that reads "Rick Blangiardi".

Rick Blangiardi, Mayor
City and County of Honolulu

HONOLULU POLICE COMMISSION

Shannon L. Alivado
CHAIR

Jerry C. Gibson
VICE CHAIR

Ann Botticelli
COMMISSIONER

Doug Chin
COMMISSIONER

Carrie K. S. Okinaga
COMMISSIONER

Richard Parry
COMMISSIONER

Kenneth Silva
COMMISSIONER

The Honolulu Police Commission is made up of seven members who are appointed by the Mayor and confirmed by the City Council. All members serve staggered terms of five years. They volunteer their services and do not receive any compensation.

A chair and vice chair are elected from within its membership every year. The commission chair for 2022 was Ms. Shannon L. Alivado. Mr. Jerry C. Gibson served as vice chair.

The commission has the following mandated responsibilities:

- Appoints and may remove the Chief of Police;
- Evaluates the performance of the Chief of Police at least annually;
- Reviews rules and regulations for the administration of the Honolulu Police Department;
- Reviews the annual budget prepared by the Chief of Police and may make recommendations thereon to the Mayor;
- Compares at least annually the actual achievements of the police department with the goals and objectives in the five-year plan; and
- Receives, considers, and investigates charges brought by the public against the conduct of the department or any of its members and submits a written report of its findings to the Chief of Police.

MESSAGE FROM THE CHIEF OF POLICE

Aloha,

As the Honolulu Police Department (HPD) commemorates its 90th anniversary, it is my honor and privilege to serve as its 12th chief of police. Having worked as an HPD officer and detective two decades ago, this is a homecoming and return to where I began my career in public service. It is obvious that while police technology and tactics have advanced, the basic tenets of helping others and demonstrating respect toward all remain the same.

With the reopening of schools and businesses, the HPD has resumed holding public events and community activities that were suspended during the pandemic. District coffee hours, neighborhood security watches, and citizens patrols are in full swing along with a full calendar of Police Activities League (PAL) sports. Several new projects made their debut in 2022, including a federally funded youth mentorship project and PAL hula classes.

A Supreme Court ruling on the concealed carrying of firearms required changes to the department's firearms application and registration processes. A public hearing was held to collect comments on the new procedures. As this report goes to print, state and county legislators are working on laws to address how and where permitted concealed firearms will be allowed.

Providing needed services to individuals who are homeless continues to be a challenge across Oahu. In Waikiki, officers use the Proactive Enforcement Against Criminal Elements (PEACE) approach to obtain assistance for homeless persons and to educate residents and businesses with the goal of reducing crime. The approach has shown to be popular and effective. In late 2022, the HPD transferred the operational responsibilities for the Homeless Outreach and Navigation for Unsheltered Persons (HONU) program to the city. The department has obtained funding to bring back nurses to the police cellblock, where their expertise has been very valuable in assisting and processing arrestees who require medical attention.

Across the nation, police departments have struggled to fill their ranks. The HPD continues to have 300-400 officer vacancies out of nearly 2,200 authorized positions. Civilian vacancies are also significant, with approximately 200 of the 600 authorized positions unfilled. To address the shortage, the department is working with high schools and colleges, to develop pathways for students who are interested in working as police officers or in civilian positions. The department has also joined with other city agencies in conducting recruitment campaigns and events.

It has certainly been an eventful year for the citizens of Oahu and the HPD. We thank everyone for their continued support. Everything is possible when we work together.

Mahalo and be safe.

DEPARTMENTAL ORGANIZATION

POWERS, DUTIES, AND FUNCTIONS

The Honolulu Police Department serves as the primary law enforcement agency for the entire island of Oahu.

The Chief of Police directs the operation and administration of the department and is responsible for the following:

- preservation of the public peace;
- protection of the rights of persons and property;
- prevention of crime;
- detection and arrest of offenders against the law;
- enforcement and prevention of violations of state laws and city ordinances; and
- service of processes and notices in civil and criminal proceedings.

The department's jurisdiction is the City and County of Honolulu. It includes the entire island of Oahu, which has a circumference of about 137 miles and an area of approximately 596 square miles. The estimated resident population is 1,007,000, which includes military personnel but not tourists.

For police operations, the island is divided into eight patrol districts; each district is subdivided into sectors and beats. The department's headquarters is at 801 South Beretania Street in downtown Honolulu. District stations are found in Kalihi, Kaneohe, Kapolei, Pearl City, Wahiawa, and Waianae.

AT A GLANCE

In 2022, the Communications Division received 971,113 calls for service, of which 820,356 (84.48 percent) were for police services. The division's operators routed 35,651 calls to the Honolulu Fire Department and 102,407 calls to the Emergency Medical Services Division and 489 calls to the Ocean Safety and Lifeguard Services Division, Honolulu Emergency Services Department. There were 12,210 calls for miscellaneous services which include, but are not limited to, calls for the Crisis Center, Poison Control, Regional Dispatch Center, and the neighbor island Public Safety Answering Points.

911 CALLS	2022	2021	% CHANGE

NOTEWORTHY 2022

Nurses Providing Care in the Central Receiving Division

Beginning in March 2022, the Hawaii State Department of Health's (DOH) Adult Mental Health Division (AMHD) procured and funded nurses to provide health services for detainees in the Central Receiving Division (CRD). The DOH coordinated the services through the Hawaii Coronavirus Aid, Relief, and Economic Security Act, which subcontracted eight nurses from NIU Health who were able to provide around-the-clock services in the CRD by November 2022.

The nurses provided medical assessments for incoming and current detainees for mental health and substance abuse to include evaluations for risk of overdose and treatment. The nurses also issued medications and provided prescription refill services and basic medical care and clearances.

Between March and December 2022, the nurses completed 3,093 screenings and identified 745 individuals who had symptoms of substance abuse and mental illness. As a result, the nurses connected these 745 individuals with initial services or reconnected them with substance abuse or mental health case managers. In addition, the nurses' assessments were shared with the Oahu Community Correctional Center intake in order to assist with properly treating and housing detainees identified with substance abuse or mental health issues.

The CRD is discussing plans for the future to divert detainees and place them in assessment centers for diagnosis and treatment of substance abuse or mental health issues. The CRD is also looking into providing detainees access to a forensic peer specialist who would assist with counseling and coordinated support to help stop recidivism.

Annual Kalihi Ahupua'a Bike Ride

The nonprofit bicycle education program/shop, Kalihi Valley Instructional Bike Exchange (KVIBE), conducted their Annual Kalihi Ahupua'a Bike Ride event on April 2, 2022. About 100 bicyclists attended the event, which welcomes all keiki to kupuna to participate and learn about the story of Kalihi. The KVIBE takes the riders along a journey from Ho'oulu 'Aina in Kalihi Valley to the final destination of Maui Ola (Sand Island), learning about the cultural and historical significance of the "story stops."

The District 5 (Kalihi) Community Policing Team partnered with the KVIBE to provide all the bicyclists a safe passage to each stop along the Kalihi ahupua'a and ensure that

all riders adhere to the bicycle safety and traffic laws. The officers also provided traffic control keeping the group of bicyclists together, aided anyone with injuries, and provided those who could not finish the route with transportation.

The "story stops" sites took place at Ho'oulu 'Aina, KVIBE, Puea Cemetery, Niuhelewai (Lo'i Kalo Park), Kalakaua District Park, and Maui Ola. The event was a success because of the long-term partnership between the HPD and KVIBE, keeping the riders safe and instilling a sense of pride to those who call Kalihi home.

Police Activities League Extends to Include Cultural Programs

In 2022, the Police Activities League (PAL), which offers a wide range of sports for Oahu's youth, introduced a hula pilot program for children ages five to seventeen years old. This new program offers the Oahu's youth something other than the traditional sporting events previously offered by PAL. Programs such as these provide a safe and healthy activity in which the youth can have fun, develop skills, and learn and understand positive values that will serve them well in life. Additionally, hula participants are given an opportunity to learn about the Hawaiian culture and history.

The hula program's theme is Naue O Lehua, Movement of the Lehua. Participants learned the historical background of basic movements of both the kahiko or traditional hula, and the 'auana or modernized hula. Basic directions and names of body parts in the Hawaiian language were taught. Youth also learned to make two different styles of ti leaf leis. As they progress, the 'oli or traditional chants will be implemented, as well as cultural activities that will not

only tie back into the cultural perspectives of hula, but also reinforce a connection to the communities that they come from.

Due to the rise in participation and the positive feedback received from parents, PAL's hula program became a permanent activity. The practical training sessions are held at the Ke Kula Maka'i Training Academy and the lead kumu is Blaine Kia, assisted by Detective Lauren Porter of the Honolulu Police Department's Human Resources Division. Currently, there are about 20 participants in the program with plans to expand into other communities.

During November and December of 2022, members of Naue O Lehua performed at Ala Moana Shopping Center's Centerstage, Kahala Mall's center stage, Waikiki Beach Walk, and Lunalilo Care Home as their way of giving back to the community.

Honolulu Police Department Claims its Seventh Law Enforcement Accreditation Award

Accreditation in Law Enforcement established a way to strengthen an agency's accountability, both within the agency and the community, through a continuum of standards that clearly define authority, performance, and responsibilities. It also provides a framework to personnel and ensures the agency is reaching administrative and operational goals that meet the established set of professional standards set forth by the Commission on Accreditation for Law Enforcement Agencies, Inc. (CALEA). These standards provide best practices related to life, health, and safety procedures for the agency thereby providing a framework to address high-risk issues and to ensure officers are prepared to meet basic community service expectations and prepared to manage critical events.

The accreditation process entails a four-year review cycle in which web-based assessments of documentation is performed annually to ensure compliance with the standards. Upon completion of the fourth web-based assessment, a site-based assessment is conducted where CALEA-trained assessors tour and review operations, conduct interviews with local leaders and officials, hold a public information session, and report its findings to the CALEA Commission for final determination of accreditation status.

The Honolulu Police Department's Accreditation Section was recognized for complying with all applicable standards with no standard issues and was recommended for reaccreditation by a panel of CALEA Commissioners. Following a successful commission review, the HPD received its seventh CALEA Law Enforcement Accreditation Award in July 2022 at the Summer CALEA Conference in Chicago, Illinois.

Youth Mentoring Initiative

The District 2 (Wahiawa) and 3 (Pearl City) Community Policing Teams (CPT) continue to build trust and strengthen positive relationships by being proactive in crime prevention in their respected communities. These relationships are vital to creating partnerships and collaborations necessary to solving community issues. Through consistent, positive interactions with the school and their students, the CPTs are building and maintaining genuine relationships, giving them a positive perspective of police officers.

The Waipahu High School Law and Justice Administration Pathway curriculum was created in partnership with District 3 CPT officers to learn the fundamentals of law enforcement, which prepares students for careers in Criminal Justice and Public Safety through work-based scenarios. The school is going on their fourth year and the program is thriving. The students have a better understanding of police work and the court systems. The school has seen an improvement in attendance, crime reduction, and increase in students graduating.

The administration at Mililani High School requested a partnership with District 2 CPT officers to assist with creating and leading the Law Enforcement curriculum set to begin in the 2023-2024 school year. They currently have the Law and Public Safety Pathway, an elective for students who are interested in the field of law. The students in the class provided positive feedback to the officers on how their views have changed since the mentorship began. Some of the students are showing interest in joining the Honolulu Police Department (HPD). The Law Enforcement program will consist of 64 classes (August to December and January to May) with an overview of the many facets of law enforcement work, opening a great potential for future HPD recruits. The CPT officers are also assisting with Driver's Education classes and mentoring the students on safe driver tips and driving under the influence.

Keeping the PEACE in Waikiki

There was a rising trend in complaints regarding the homeless committing petty crimes in Waikiki. District 6 (Waikiki) looked further into this and realized that there was a smaller core group in this homeless population who were committing a large portion of these crimes. The officers were able to narrow down the specific locations where the crimes were occurring. To address the crime and growing homeless concerns, Acting Lieutenant Blake Arita of District 6 implemented the Proactive Enforcement Against Criminal Elements (PEACE) Waikiki project. It was fully implemented in 2022 with high success rates and received positive affirmation by community members and elected community officials. The success of the project was based on the two-step process involving the homeless, community, and District 6 support units.

The first phase involved showing compassion to the focus group through providing shelter opportunities, outreach services (obtaining basic identification documents and hygiene supplies and linking up with case workers), and education (warnings and informing violators of the laws and their penalties). The District 6 Community Policing Team executed this portion of PEACE Waikiki with the collaborative effort from resources within and outside of the Honolulu Police Department (HPD). The officers are also educating the residents and visitors of the complaints, restoring the public's trust, and creating a safe and welcoming environment.

After the completion of phase one, the last phase involved zero tolerance enforcement conducted by the District 6 Bicycle Detail, All-Terrain Vehicle Detail, and Fourth Watch officers. They worked with the smaller groups who continued to break the law even after given multiple warnings and outreach opportunities. The enforcement was achieved through citations and arrests. The crime rates in high-crime areas decreased tremendously during the last phase because of the officers' consistent application through compassion and zero tolerance enforcement.

In September 2022, KITV4 featured a piece on the St. Augustine by the Sea Catholic Church and the growing homeless encampments outside its doors. Pastor Lane Akiona made a complaint to the Mayor's Office regarding the homeless loitering near his property and committing crimes. The HPD, along with Mayor Rick Blangiardi, his staff, and other community leaders, met with Pastor Lane to address the complaint. The PEACE Waikiki project assisted in handling the problem; and within three days, the complaint was successfully addressed using the two-step process.

Supporting the Homeless Through HONU

In November 2022, the Honolulu Police Department's (HPD) management of the daily on-site and administrative operations of the Homeless Outreach and Navigation for Unsheltered Persons (HONU) transferred to the Department of Community Services (DCS), City and County of Honolulu. The HONU three-year, pilot operational period that launched in 2019 is a coordinated effort between city, state, social services, and healthcare providers to address the homeless population of Oahu. The design for HONU came from the success of the HPD's own homeless outreach program, Health, Efficiency, Long-Term, Partnerships (HELP), which assisted in sheltering homeless individuals.

Originally conceptualized as Lift Mobile Navigation Center (LIFT), the program targeted underutilized city parks where existing park rules could be lifted to allow for a temporary facility to be placed for a period no longer than 90 days. Besides a safe place to stay, the HONU provides a 24/7 low-barrier navigation facility that helps individuals with medical conditions; assists individuals with obtaining vital

documents such as identification, birth certificates, and social security cards, and provides a space for their pets.

The HONU helps to address the various jurisdictional issues that allow the homeless community to move between locations without the synchronization of services. The HPD and/or other State of Hawaii law enforcement utilize the HONU as locations where homeless individuals can be directly referred into services in lieu of enforcement.

In 2022, the HONU served 730 individuals at 5 different sites across Oahu and helped 442 individuals transfer to a more permanent living arrangement. Since its launch, the HONU has served 3,187 individuals and placed 1,787 individuals into shelter, housing, treatment, or other temporary living arrangements.

Importance of Youth Mentorship Programs

The value of mentoring youth can have a positive impact upon their lives as they go through their personal challenges and transition to adulthood. Through funding from the Edward Byrne Memorial Justice Assistance Grant (JAG) program and community partnership like Weed & Seed Hawaii, the District 1 (Central Honolulu) Community Policing Team organized the Coral Crater Adventure Park in Kapolei and Scaventour™ Outdoor Escape Game in Waikiki events in June 2022. In both events, the youth utilized teamwork, problem solving, and leadership skills to complete the activities successfully while having

fun. Throughout the events, the youth were provided a safe environment to socialize with their peers and law enforcement officers. The officers interacted with the youth and instilled positive thinking to increase confidence and self-awareness and to overcome fears. They were surrounded by adults who had positive attitudes, were respectful, and helped to inspire them to achieve their dreams, which are great qualities of role models. The youth gained life skills that will help them navigate through obstacles and embrace the challenges.

Active Threat: Preparedness and Response Training

Active threat incidents are increasing, placing the safety of police officers and the public at greater risk. To address the increased threat, the District 7 (East Honolulu) Crime Reduction Unit developed a patrol-level shield training course to train officers in advanced weapons manipulation and handling and how to deploy as a team in a tactical environment. The training improves officer survival skills in dynamic situations and effectively addresses threats to the public.

In addition to the training, officers must have quick access to the required equipment to be fully effective in responding to active threats. The Emergency Response Vehicle (ERV) pilot project initiated by District 7 provides tools to the officers in real time when faced with dynamic situations.

In the pilot project, an ordinary police Ford sport utility vehicle was outfitted with tactical equipment and placed in the field during regular patrol watches. In the event of an active threat, the patrol officers would have immediate access to the equipment needed to navigate the situation with caution and save lives. All eight patrol districts are now equipped with ERVs. With continuous training and effective tools, the Honolulu Police Department continues to put public safety as their number one priority.

Nonemergency Police Reports

The Honolulu Police Department provides sufficient alternatives to respond to nonemergency calls through the Alternative Call Servicing (ACS) unit since the program was revived in 2018. The unit has expanded from only handling the 911 calls for specific nonemergency reports over the telephone to managing the online police report requests. The public can remotely and conveniently file police reports via the ACS by utilizing the nonemergency citizens online police reporting system found on the honolulupd.org website. The system allows the citizen to submit a nonemergency report for incidents that occurred on the island of Oahu. The website includes a set of limited criminal incidents with specific criteria listed:

- Add Inventory List of Property (for existing Unauthorized Entry into Motor Vehicle and/or burglary cases; include HPD report number in the narrative)
- Assault - Minor - no visible injury, no weapon
- Catalytic Converter Theft
- Credit Card Falsely Issued
- Criminal Property Damage (excluding Motor Vehicle Collision damage)
- Follow-up Report - Add information to my report (include report number in the narrative)

- Fraud Cases (computer fraud, scam, false employment claims, etc.)
- FUCC - Fraudulent Use of Credit Card
- Harassment
- ID Theft
- Lost Property
- Miscellaneous Damages - Accidental
- Miscellaneous Public Report - documentation only
- Theft (does NOT include vehicle)
- Traffic Incident

The unit has emerged as a highly effective tool that utilizes technology toward reducing the overwhelming workload of patrol officers while improving police services to the community. In 2022, the ACS handled 20,561 case assignments (police reports and miscellaneous service requests). ACS officers also have the flexibility of spending more time to listen to callers and answer questions without the pressure of having to respond to other emergency calls. They are able to provide better customer service to the callers and reduce the number of repeat calls to the 911 system. Providing effective and efficient police service to victims of crime is priority and our pursuit to maximize public safety.

Overtime Digitization

In November 2022, the Finance Division launched the Overtime (OT) Portal Pilot Project. The division recognized that the current manual OT timecard system required improvements to manage and standardize OT submissions. The Audit of the Honolulu Police Department's Overtime Policies, Procedures, and Protocols, Resolution No. 21-58, was conducted and provided recommendations in May 2022:

1. Standardize and centralize OT policies and procedures for all patrol districts and nonpatrol divisions; and
2. Consider alternatives to a manual OT timecard system.

Prior to the audit report, the Finance Division had been working on a solution to improve the management of police OT. It was an ambitious undertaking to update the paper submission procedures with a more efficient digital submission process for the timely and accurate

compensation of employees working on OT. The OT portal provides element commanders with an effective tool to manage OT expenditures with available real-time data. Additionally, OT submissions are managed digitally, decreasing human error, abuse, and fraud.

The screenshot shows the 'Honolulu Police Department Overtime - Create Request' form. It includes fields for 'Start' and 'End' times, 'Total Time Earned', and 'Category' (with options for 'Comp Time' and 'Pay Report Number'). There is a 'Select Overtime Reason' dropdown menu. The form also has sections for 'Requested By' (with a dropdown for 'Supervisor, Commander, Prosecutor') and 'Justification and Additional Information' (with a text area for 'Case Classification, Project Name'). At the bottom, there is an 'Attachments' section with a 'Choose File' button and a 'Max Size 2MB' limit. The form is titled 'Honolulu Police Department Overtime - Create Request' and has a 'Submit' button at the bottom right.

License to Carry Firearms

On June 23, 2022, the Supreme Court of the United States (SCOTUS) ruled in the landmark case of *New York Rifle and Pistol Association Inc. v. Bruen*, overturning a New York gun law that requires applicants to show a proper-cause requirement for obtaining a license to carry a concealed weapon. The court ruled that it is unconstitutional and violates the Fourteenth Amendment in that it prevents law-abiding citizens with ordinary self-defense needs from exercising their Second Amendment right to keep and bear arms.

Following this ruling, the State of Hawaii Attorney General, Ms. Holly Shikada, released an opinion regarding the SCOTUS ruling in July 2022. Ms. Shikada related that the chiefs of police may not constitutionally restrict both concealed and unconcealed (open) carry licenses only to those who demonstrate a “special need.” Subsequent to the opinion letter, Chief of Police Arthur Logan decided that the Honolulu Police Department (HPD) would change the process of acquiring a concealed license to carry a firearm to be less restrictive in accordance with the *Bruen* court ruling and Ms. Shikada’s opinion.

On October 4, 2022, a public hearing was held at the HPD to amend Chapter 15 of the Rules of the Chief of Police, which governs the firearms process of permits and licenses. The agenda was intended to:

- Set forth a clear process for applicants to obtain permits to acquire and register firearms;
- Set forth a clear process and criteria (including testing, training, and background check requirements) for detectives, investigators, and guards to carry firearms while on duty, along with requirements for detective and guard agencies with armored employees;

- Set forth a clear process and criteria (including testing, training, and background check requirements) for applicants to obtain licenses to carry firearms outside of the home, whether concealed or unconcealed, and for renewing licenses;
- Provide substantive guidelines for carrying a firearm outside of the home, including the manner in which a firearm shall be carried, a requirement to carry one’s license on one’s person, and a requirement to carry no more than one firearm at a time;
- Set forth a clear process and criteria for certification of instructors to teach firearm safety and administer the required testing for applicants; and
- Provide circumstances under which licenses to carry and instructor certifications will be revoked and the appeal process for denials and revocations.

The HPD received 71 oral and 377 written testimonies all of which were taken into consideration during the revisions of Chapter 15 of the Rules of the Chief of Police. The HPD worked closely with the Department of the Corporation Counsel and a draft was completed on November 10, 2022. On November 20, 2022, Chief of Police Arthur Logan and Mayor Rick Blangiardi both signed the Revised Rules of the Chief of Police.

Between June 23 and November 19, 2022, the HPD received 600 applications for concealed and unconcealed licenses to carry a firearm. Over the period of several months, the HPD has created new forms, form letters, procedures, and policies to support the revised license to carry firearms process. On December 28, 2022, Chief Logan approved and signed the first License to Carry Concealed application and the following day, the first License to Carry Concealed card was issued.

Permit to Acquire and Firearms Registration

In January 2022, the Honolulu Police Department's (HPD) Firearms Unit, Records and Identification Division, implemented an online registration process for firearms purchased from an in-state dealer. Firearms brought from out-of-state, private sale, acquired from an estate, and assembled without a manufacturer's serial number require in-person registration and physical inspection. To serve the public better, this new process has made firearm registration services available 24/7.

In addition, the HPD implemented a new procedure in which after an in-person firearm permit application is completed, the approved permit can be transmitted via e-mail. This process provides better service by reducing the number of times a person is required to physically appear at the HPD Alapai headquarters.

In 2022, there were 9,042 online registrations and 2,860 permits that were sent to the applicants via e-mail.

Cybercrimes Institute Awards

Each year, the National Computer Forensics Institute (NCFI) recognizes 50 local law enforcement officers nationwide for computer forensic examination that assists with investigations, including violent crimes, financial fraud, and many others. On January 20, 2022, Lieutenant Andrew Maddock of the Cybercrimes Detail, Criminal Investigation Division, was awarded the NCFI Top Forensic Award from the United States Secret Service Honolulu Field Office.

In addition, Lieutenant Maddock was also awarded the NCFI's Most Significant Case for his work in an investigation that involved 16 victims nationwide in which a local

suspect was apprehended. This award is given to ten recipients nationwide each year for complex and highly technical cases.

Now in its fourth year, the Cybercrimes Detail continued to demonstrate their value by handling 1,316 cases of which 136 were conferred for prosecution with city and federal prosecutors. They examined 418 devices for other investigative details and sent 915 cases to outside agencies due to the person of interest not residing in the state of Hawaii.

An aerial photograph of a coastal region during sunset. The sun is low on the horizon, casting a bright, golden glow across the sky and reflecting off the water's surface. The water is dark blue with visible ripples. Several small, dark islands and peninsulas are scattered throughout the water. In the background, a city skyline is visible under the twilight sky, with some lights beginning to glow. The overall mood is serene and expansive.

STATISTICS 2022

STATISTICS 2022

Violent and property crimes are categorized into seven serious offenses called index crimes, which are used to define trends over time and make comparisons across the nation. The statistics for index crimes are prepared and submitted to the Federal Bureau of Investigation's (FBI) Uniform Crime Reporting (UCR) Program on a regular basis. Index crimes consist of four types of violent crimes (murder, forcible rape, robbery, and aggravated assault) and three types of property crimes (burglary, larceny-theft, and motor vehicle theft).

Murder and murder-related counts in Tables 1, 2, and 5 were obtained from the Honolulu Police Department's (HPD) Homicide Detail, Criminal Investigation Division. Traffic fatality numbers were provided by the Traffic Division.

All count data, except for Curfew and Runaway in Table 4, were obtained from our department's Case Report System (CRS) and converted from the National Incident-Based Report System to the Summary Reporting System.

In 2022, the HPD's CRS was used to prepare the following 2022 tabular count data:

- All index and non-index crime data except Murder;
- Weapon type used in Robbery and Aggravated Assault;
- Adult and Juvenile Arrests; and
- District and Beat Offenses.

TABLE 1: CRIME INDEX

OFFENSES	2022	2021	2020	2019	2018
Murder	25	21	19	24	24
Forcible Rape	261	293	328	342	333
Robbery	782	795	739	955	803
Aggravated Assault	1,266	1,407	1,300	1,324	1,280
VIOLENT CRIME	2,334	2,516	2,386	2,645	2,440
Burglary	2,470	3,454	3,291	3,869	3,544
Larceny-Theft	17,596	20,079	17,843	21,578	20,945
Motor Vehicle Theft	4,051	4,816	3,947	3,842	4,162
PROPERTY CRIME	24,117	28,349	25,081	29,289	28,651
TOTAL	26,451	30,865	27,467	31,934	31,091

TABLE 2: WEAPONS USED

FIREARMS USED	2022	2021
Murder	10	9
Robbery	134	132
Aggravated Assault	201	247
KNIVES OR CUTTING INSTRUMENTS USED		
Murder	8	8
Robbery	105	94
Aggravated Assault	401	368

TABLE 3: TRAFFIC FATALITIES

	2022	2021
Traffic Fatalities	55	47

INDEX CRIME DEFINITIONS

Index crime definitions from the FBI's UCR, Summary Reporting System Manual 1.0, are listed below:

MURDER

The willful (non-negligent) killing of one human being by another.

FORCIBLE RAPE

Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

ROBBERY

The taking or attempted taking of anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

AGGRAVATED ASSAULT

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

BURGLARY

The unlawful entry of a structure to commit a felony or a theft.

LARCENY-THEFT

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle.

TABLE 4: ADULTS AND JUVENILES ARRESTED
